

General Proposal Qualifications Checklist and Characteristics of Paradigm from California

1. **It Is Accurate.**
Its explanation falls entirely within the accurate/inaccurate framework and it is accurate at its highest level and throughout.
2. **It Is Useful In The Extreme For Work Out Well All Around.**
It is useful in the extreme, in, specifically, a work out well all around direction.
3. **It Is New.**
It is entirely new, particularly its single high level discovery and many medium level discoveries.
4. **It Conforms Entirely To What Is Already Scientifically And Self-Evidently Known.**
Its specific low and medium level portions are accurate to what is already known scientifically and by common experience.
5. **It Is Relevant.**
It is highly and pointedly relevant to all or almost all of the major and local problems of humankind now faced by all those who face them or attempt to face them.
6. **It Solves In The Conventional, Real Life, Work Out Well Sense.**
It solves in the conventional, everyday, real life, daily life, work out well all around sense, quite directly, as well as in the long term; six billion people wide, real life, by everyone's standards, no tricks, as illustrated in detail in the enclosed.
7. **It Is Comprehensive.**
It is comprehensive: work out well all around is based on an overall accounting that includes 100% of the population (six billion people presently), or by a lower level calculation, 99.99% of the population but not below that.
8. **It Is Complete.**
It is complete, a finished work, and has been for ten years, and it has gone through three major upward additions and strengthenings since it was completed. And, if humanity survives, many more to come, of course, before it is superseded.
9. **It Is Clear.**
It is clear, it is clearly written, it is succinct, it is attractively and modestly produced, and it is unobtrusively presented.
10. **It Is Easy To Grasp.**
It is easy to grasp: harder than arithmetic maybe, but easier than algebra. Social terror systems aside, it is easy for any person to understand.
11. **It Is Seen Through The Alert, Conscious, Critical, Reasoning Power Of Each Individual Person.**
It is seen through, and is entirely subject to, the alert, conscious, logical, critical, scientific, five-senses/self-evident, broadly and deeply aware internal reasoning power of each individual; taking 360 degrees of things into account, including unexpected things.

It uses no "unexplored parts of the mind", no "psychic forces", no "believing in", no "new-age knowledge", no "walking on the water", no "curve balls", no deception and no deceptions; in a crucially important sense, no surprises.

Again, no tricks; all very straightforward, using familiar, conventional types of thinking, and clear, very well defined and conventionally defined language. Hold me to this item every minute, big time. It's my specialty.
12. **It Stands On Its Own.**
It is a structure that stands on its own, in full conformity with self-evident reality; it maintains as an accurate, useful system; it stands, independent of an attachment to a particular person or group.

Again, the maintenance and advancement of this paradigm does not require the backing of a particular individual or group of individuals, but rather requires only the backing of accurate reports of everyday, daily life, including scientific and artistic work, in the present and nearby, from elsewhere, and through all history, those accurate reports all coupled with the internal, conscious, critical intelligence of each individual of the population.

It doesn't stand on a particular individual or group; in the real world, within this bioecosystem, as a very high level, scientifically known element in the entire four billion year bioeco system of this planet, like arithmetic, like chemistry, like astronomy, Paradigm from California is a system that just stands, and like them too, in human terms, it stands, forever.
